Risk Management

- Risk 1–2% per trade
- Aim for slow, consistent growth
- Protect your account — patience wins

Final Step

Once setup is complete: Message: “**Setup Complete** 

Your 1:1 mentorship call will be scheduled.

Team Ethics & Culture Guidelines

Our community grows strongest when we grow together. These guidelines ensure everyone has the best experience and stays on track for long-term success.

- **Encourage & Support Always**

We're a team built on positivity. Lift others up, motivate each other, and contribute to a supportive environment every day.

- **Maintain Professional Language**

Respect is key. Please avoid foul or inappropriate language in all chats so we can keep the space uplifting and welcoming for everyone.

- **Complete Your Onboarding Education First**

Before asking questions in the chat, please watch all educational and onboarding videos. Most answers are already covered, and completing the steps will help you progress faster and more confidently.

- **Share Your Wins in the Main Chat**

Post your profits and progress in the main group to inspire others and celebrate growth together. Your success encourages someone else to keep going.

- **Stay Plugged Into the System**

Consistency creates results. Stay connected to the tools, resources, live sessions, and community support to maintain consistent profitability.

- **Adopt a 3–6 Month Mindset**

This isn't a race. Give yourself 3–6 months—not 3–6 weeks—to learn the system, build discipline, and develop real consistency in the markets.

- **Commit to Continuous Learning**

We're proud to be an educated, high-standard community. Please complete every step in this document and check in with your sponsor once everything is done. ✓
